3/21/2024 Annual Review

PROBLEM STATEMENT

Traditional resumes and certificates does not give the candidate's practical skills. Instead of using a traditional resume the digital portfolio explains practical skills more effectively. It gives an interactive and dynamic resume .

PROJECT OVERVIEW

SUMMARY: I had created a digital student portfolio. I created it by using HTML, CSS and javascript. I added external file for CSS and javascript I created it in a royal blue theme. I included a hamburger navigation menu which was helpful for the viewer to directly navigate to the some specified section.

PROJECT OVERVIEW

What my poject contains:My project contains the details about me like about me, my skills, my projects, my career goal, and my education. It gives information about my projects very clearly. It helps the employer to validate my skills.

Main idea:The main idea of the project is to give the details in an interactive way.It will give the information and skills about the candidate in an dynamic way.

WHO ARE THE END USERS?

The end users of the digital portfolio is depends on the recruitments . It will helpful for the students, teachers, job seekers, and other professionals. By using a digital portfolio they can create an interactive resumes. Depending on the recruitments the end users will change. It will sometimes engineers, teachers, students, university officers, clients etc.

TOOLS AND TECHNIQUES

TOOLS: The tools I have used in this digital portfolio is HTML5, CSS, javascript, chrome and codepen for code editor.

TECHNIQUES: I used semantic tags like `<nav>`, `<head>`, `<footer>` for better readability. I used external CSS for adding styles to my portfolio. I used javascript to give a popup message after submitting a message in my contact which was in form and validation. I also used javascript for smooth navigation.

POTFOLIO DESIGN AND LAYOUT

I had used CSS for the styles and font colors. I used Royal Blue theme for my digital portfolio. And I used css box property to mention my projects. I used navigation menu which scrolls smoothly to the sections. I highlight my career goal. I used CSS media queri to create a responsive design which was used for both mobile friendly and desktop site. And also the sections are equally spaced it will help the viewer to easily read. My digital portfolio balances ssimplicity and professionalism.

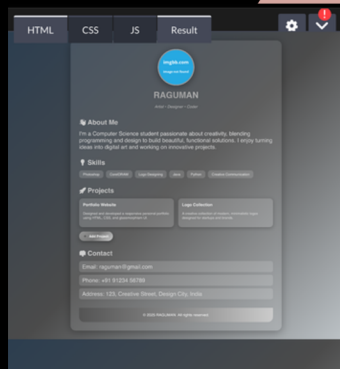

FEATURES AND FUNCTIONALITY

FEATURES: The features of my portfolio is it has the

1. clean and professional design
2. structured layout
3. smooth navigation
4. Responsive design
5. Clearly mentioned projects
6. simple footer with copyright

FUNCTIONALITIES: I created an digital portfolio with navigation functionality, contact form with popup alerts, Interactive user experience, responsive behaviour, minimal spacing control.

RESULTS AND SCREENSHOTS

- **Content:** You included the right information and explained your work clearly.
- **Design:** The portfolio looks nice and is easy to use.
- **Skills:** You showed you can use the right tools and programs well.
- **Creativity:** Your work is original and interesting.
- **Professionalism:** The language is clear, and everything looks neat.

CONCLUSION

Highlights of the Project:

- 1.digital portfolio website built using HTML, CSS, and JavaScript
- 2.Includes structured sections: About Me, Skills, Career Goal, Projects, Contact, Footer..
- 3.Smooth navigation with a fixed menu for easy access.
- 4.Contact form with JavaScript validation for user interaction
- 5.Responsive design, adaptable to all devices(desktop,tablet, mobile).

Benifits to society:

- 1.Helps students and professionals showcase their skills and achievements digitally.
- 2.Useful for recruiters and employers to easily access and evaluate candidates online
- 3.Inspires others to create their own personal branding through digital portfolios.

THANK
YOU
